Will Name Two Men, 2 Women

NEW YORK, Jan. 5.—Edward J. Reilly, chief defense attorney for Bruno Richard Hauptmann, said today that next Thursday in Flemington, N.J., he would name four persons and charge them with the kidnapping of the Lindbergh baby.

"They are two men and two women," Reilly said.

Reilly was here for a conference with handwriting experts.

Reilly denied reports the defense had attempted to identify the body of the baby found was not that of the infant son of Charles and Anna Lindbergh.

Asked if trial client, Hauptmann, who is on trial for the murder of the baby, would be present, Reilly replied, "No."

The defense, he believed, was innocent and Hauptmann was innocent of the crime," Reilly said, then added: "We must prove it."

Reilly replied "No" to the question if Betty Gow, nurse of the Lindbergh household at the time of kidnapping, would be implicated in his promised disclosure.

The defense attorney announced Hauptmann would be the first defendant to stand trial and the defense would construct its case on three groups of witnesses.

The first of these groups, he indicated, would be utilized to establish a "complete alibi," the second

TORONTO COPS NAB WRITER DEATH NOTES

Four-x Spike Poison Pen-nabbed at Telephone Booth

TORONTO, Jan. 5.—Michael Jordan, 26, of Hamilton, was arrested last night, charged with "threatening to kill" and possibly writing "X-5 Spike," who has written threatening letters to Mayor W. W. Mayo and Acting City Attorney Norman Watson of London, Ont.

Det. Arthur W. Rookwood, of the police, also was the recipient of threatening letter, signed "X-5 Spike."

Jordan, who gave his address as 48 Douglas Avenue, Toronto, was a police officer, said the police said. He was arrested while telephoning an evening paper regarding a possible avenue of armament, police said.

PHONED ANALYST

Authorities said he had made telephone call to Fred Jocelyn, Regars, Ontario government analyst.

Friday Mayor Stewart had over a telephone call from a man of candy which he had received Thursday night, with a note signed "X-5 Spike" and "Michael J. Mayo."

The note declared there was no restriction for activity in politics, but that he was otherwise not restricted for activity in politics, and that he was not such activity has no relationship to provincial politics."

Dr. W. C. Wallace, recommended by the police, said he had made a telephone call to Fred Jocelyn, Regars, Ontario government analyst.

Friday Mayor Stewart had over a telephone call from a man of candy which he had received Thursday night, with a note signed "X-5 Spike" and "Michael J. Mayo."

The note declared there was no restriction for activity in politics, but that he was otherwise not restricted for activity in politics, and that he was not such activity has no relationship to provincial politics."

Dr. W. C. Wallace recommended and adopted the ruling, "but a part time member of the staff, if he engaged in political activities, he should do so to all extent that his relationship to the university is incidentally and not exclusively political activities and entirely unconnected with the university."

PERSONAL ANGLE

The recommendations of Dr. W. C. Wallace, who was nominated by the Canadian Society of Mayors, G. G. McGeer, proposed a 50 per cent reduction in interest on all bonded municipal debts will be used at the conference of western mayors in Calgary, January 28, by Mr. McGeer, who said, "The Sun will represent Vancouver at the meeting."

SMOLIAK'S WIFE IS HELD AS HIRED MAN CONFesses MURDER

With John Skrut, hired man on the Smolak farm, held on the definite charge of murder by the R. C. M. P., and with Mrs. Smolak, wife of the murdered man, also detained overnight in the police cells at Vegreville, ostensibly for questioning, police believe they have solved the mystery of the shooting of Alex Smolak, in his Myrnarm home on Saturday last.

Skrut, who is still held, is the only person left in the Smolak household.

The statement referred extensively to Mrs. Smolak, and it was following this that she was taken to Vegreville and detained overnight for questioning. She is still held, but the charge, although no definite charge has been laid.

However the case has developed into what the police call a "family mix-up."

Meanwhile the two Smolaks, Mrs. Alex and Mrs. John Skrut, are in care of the Child Welfare department officials. It is not believed that either is responsible for the slaying of Smolak, beforehand, or that they have any knowledge of the killing.

The statement referred extensively to Mrs. Smolak's story causing death of 15 persons, including George V's silver jubilee.

It will take advantage of the situation to make many statements and Colonial statements to form a new plan for advancing loans at low rates, so as to permit all parts of the Empire to benefit from the general election.

The Herald said funds would be loaned on condition that they would be expended for the good of Britain.

The statement said that the National government's move was an attempt to assist the general elections.

Hawaii's First Lady U.S. Guest

Operating Expenses in Edmonton Relatively Small, Says Report

OTTAWA, Jan. 5.—Bakeries owned by the large flour milling companies in different parts of the country, John S. Swindler, investigating auditor, reported to the royal commission on mass bread today.

In general, the mill-controlled bakers in Toronto, Winnipeg, Ottawa, Montreal, Quebec, and Calgary, were profitable. Operating losses were shown in Montreal, Victoria, and Vancouver, while there was no definite loss in Hamilton, Edmonton and London.

"It appears," read the report, "written by Swindler and W. J. Peckham, that the net profit of the companies (mill-controlled) from whom reports were received was relatively large profit. On the contrary, the profits, where earned, were relatively small, though severe losses were sustained."

A schedule showing the relation of goodwill to shareholders' investment in the mill-controlled bakers

2 SHIPS SEEK AID IN GREAT PACIFIC STORM

British Vessel Helplessly Adrift in Heavy Weather — Loses Propeller

SEATTLE, Jan. 5.—Heavy seas, drifting in heavy weather, a British steamer Langezaag, asked for aid Friday, and another ship, the British steamer Finsbury, responded to the assistance offered by the American liner Queen Elizabeth.

The Langezaag received from either ship here last night.

The Langezaag, with 37 men aboard, was eastbound to Vancouver, B.C., from the Japanese coast port of Muroran, Japan.

The Finsbury, also bound for Vancouver from Japan, did not say in its messages how far away it was from the Langezaag.

Tanker Two Ships Silent

HONOLULU, Jan. 5.—No news of the Old Country liner recently released from the British Isles was received Friday in determining the location of the British tanker La Glorieuse.

The Glorieuse Company said no word had been received from the liner since it left San Francisco, Calif., for Osaka, Japan, two weeks ago, and that Japanese ships were concerned for its safety.

BRITISH NAVAL BASE CLOSED

SINGAPORE, Jan. 5.—This British naval base today barred entrance to all foreign soldiers, sailors or airmen, and the British government henceforth will be required for entry of a foreign force to land at or near the naval base.

Cloudburst Hits L.A. Hard

LOS ANGELES, Jan. 5.—A rainfall that approached the proportion of a snowfall in Southern California, in the downtown area of Los Angeles, caused flooding of a number of business establishments and telephones put out of order tests.

In the foothill section of the Sierra Madre mountains, southeast of Los Angeles, a mudslide took place Saturday morning, killing two persons.

Seed Man Killed In Auto Mishap

TORONTO, Jan. 5.—Walter Dickie, seedster, of the Steelbridge Seed Co., was fatally injured today when struck by a car.

The accident occurred at the intersection of John and Wellington Streets in downtown Toronto. Dickie, who had been seated in his car, was hit by a car which had been driven by a man who was driving away.

The accident occurred at the intersection of John and Wellington Streets in downtown Toronto. Dickie, who had been seated in his car, was hit by a car which had been driven by a man who was driving away.

Last Shipment

KENTVILLE, N.S., Jan. 5.—The steamer Viola sailed from Port Kentville yesterday with the last transatlantic shipment of coal from this port for the current season.

The total tonnage shipped to date is 16,250 barrels, 275,000 barrels less than last season.

U.S. ENTERS IN BILLION DOLLAR WORKS

ROOSEVELTIAN RELIEF DEAL IS FAST ON ITS WAY

Night Conference Whips Immediate Start Into Shape

LONG'S TAX COSTS 800 MEN'S JOBS

Oil Refiners "Can Go To Hell" Is Reply Of Kingfish

BATON ROUGE, La., Jan. 5.—The Standard Oil Company of Louisiana Friday began an "orderly" lay-off of employees at its huge plant here which has been threatened by the state to curtail its Louisiana operations because of the five-cent-a-barrel tax on gasoline proposed by Senator Huey P. Long's legislature.

Many employees reported to work Saturday morning, but it was said that after Monday they would not be needed. Unconfirmed reports fixed the number of men to be laid off at 800,000, plus the national resources board.

A new and greater centralized power has been given to the members of the present relief and public works administrations and possibly other agencies will be affected.

2,000,000 SERVED

Of 3,000,000 on relief rolls, who the President said must be provided with relief jobs, 1,000,000 have been placed Friday and almost 2,000,000 had already been given work more or less officially, not through the kind of work which is now the administration's objective.

Of 1,000,000 left for the public works, which may be increased, there will be 1,000,000 on relief rolls, and the other 100,000 will be absorbed by the present relief and public works administrations and possibly other agencies will be affected.

Can Go To Hell

NEW ORLEANS, Jan. 5.—Senator Huey P. Long last night said the Standard Oil Company of Baton Rouge, which is discharging men from its plant here, should go to hell and stay there.

"They will not leave this state unless we're gonna let 'em continue what they've been doing here—go to hell and stay there."

Long said he had been classed as "unemployable" and a large number of his workers had been courted—have been transferred from federal to state rolls—and administration plans to do the same all as transferred by Feb. 1.

WIDE WORKS PLAN

"This work will cover," the president said, "a wide field including engineering, construction, road building of several kinds; in rural electrification; in the reforestation of the country; in the extension of an intensified program to prevent soil erosion and to reclaim land; in irrigation; in repairing roads and in constructing national highways designed to facilitate the movement of agriculture, of grain, of coal, of timber, of the extensive development of the agricultural work by the civilian conservation corps."

DISMISSAL OF MAGISTRATES IS PROTESTED

VANCOUVER, Jan. 5.—The Vancouver Bar Association last night protested the reinstatement of M. McKay and J. A. Findlay as police magistrates at the end of their term of office, and called for their dismissal after inquiry, and condemned the system which resulted in the two men being allowed to sit on the county court judge to sit on the police commission.

Some 50 barristers attended the meeting which was called to discuss the case of the magistrate who sought to overturn the decision of the British Columbia government on the request of Mayor G. G. McGeer.

Ul'm's Widow Still Banks See Search

HONOLULU, Jan. 5.—One month after Charles T. Ul'm, and two companies Australian aviators disappeared, a court on Oahu Island, Oakland, Cal., to-day pronounced the schooner Lanai, chartered by Mrs. Ul'm, continued valid for removal of parts or wreckage of their plane.

Ul'm's companions were A. L. Skilling and George Littlejohn.

Duty Stays On Free State Cattle

LONDON, Jan. 5.—It was learned through official channels here that the new coal-and-cattle agreement with the Irish Free State will be admitted to the British Empire duty-free, although the special British duties on Irish cattle will remain.

The statement caused some confusion. Although the information came from Dublin, here reports said nothing was known about the new free state high commissions here reports to the British government that the Free State would not be bound by the forthcoming session.

Below is the full text of Dr. Ul'm's statement:

RECOMMENDATIONS

"The question of the participation of members of a university staff in politics is one which has been developed in this matter among the students and the public or elsewhere. On the one hand, the best interests of the university would be served if the members of the university, and all the evils connected therewith, could be avoided. On the other hand, there are rights of citizenship

Footlight Shapes Are Made By Miami Sunlight

The fine shape in which it is possible to get under beaming sub-tropic suns is illustrated by this group of beauties at the Roman Pools, Miami Beach, Fla. The girls were competing for places in the chorus of the southern edition of Earl Carroll's Vanities, which is scheduled to entertain night club patrons in the Broadway manner.

U.O.A. BOARD RIFTED UPON POLITICS ISSUE

Continued from Page One

ivities and in view of the possibility of his contesting the West Edmonton constituency as a C.C.F. candidate.

The recommendations passed with a majority vote of the members of the Board of Governors, and the future being caused. Two members of the Board were not present at that meeting.

ROPER WILL CONTEST

Elmer E. Roper, Canadian Labor Party nominee for the East Edmonton constituency, has accepted the nomination and a member of the Board of Governors, strongly objected to the proposal.

"In the federal field a member of the House of Commons and carry on his duties in the University, he should not in my opinion, offer himself as a candidate, when such a vote is considered. I am not considering what should I do with the actual facts which we have to face."

Roper has no hesitation in stating that there should not be a nomination in the field of provincial politics.

SATURDAY, JANUARY 5

GETTING IT "PLACED"

According to evidence given before the price

commission, Canadian canning companies have been paying less for what they put into cans than they paid for the cans, and

paying less to the man who did the canning

than to the farmer who grew the content.

Consequently, the farmer has had to go to the contractors which made the cans.

All that is now needed to complete this impressive picture of the place our highly-protected canned industry occupies in the economic scheme of things is that someone get up and tell the public that it is the fault of the consumer, and that this greedy individual demands his canned goods cheaper than they can be bought in other countries.

ALL RIGHT, AS A START

From the second in his series of radio addresses, it appears that the Minister of Health in Canada does a minimum wage law applying in all the provinces; that the old age pension system will have to be revised to care of the great army of middle-aged and older men and women who have been hopelessly left behind in the race for employment, insurance, sickness and accident insurance are safeguards which will have to be thrown about the working and workless population of the country.

He is right on all these counts.

Now the proposals are new, and none of them original. He has adopted them from critics who have been urging these things upon him for the last four years, and who get neither thanks nor encouragement from him for doing so.

That the Premier has at last conceded the necessity of making these detailed reforms gives some glimmer of hope that he may have undergone a change of heart also in respect to some of the fundamental changes which are urgently required in our national economic set-up. If they are offered merely as substitutes for the reconstruction of our monetary system, the manoeuvre is too transparent to deceive anybody.

TAKING PLENTY OF TIME

In order to keep their eastbound grain traffic from flowing into United States channels when the St. Lawrence froze up, the Canadian railways, with the consent of the Railway Commission, reduced rail freight rates on grain from 10 cents per bushel to 5 cents per bushel. But they did not reduce rates to Vancouver and Prince Rupert; for the sufficient reason that Alberta grain can go to no other ports and can go there by no route except over the Canadian railway lines.

Vancouver has lodged a protest with the Commission, asking that rates to the Pacific ports be correspondingly reduced. The Commission has given the railways 30 days in which to make a report, and the time has passed. But they did not reduce rates to Vancouver and Prince Rupert; for the sufficient reason that Alberta grain can go to no other ports and can go there by no route except over the Canadian railway lines.

That the Premier has at last conceded the necessity of making these detailed reforms gives some glimmer of hope that he may have undergone a change of heart also in respect to some of the fundamental changes which are urgently required in our national economic set-up. If they are offered merely as substitutes for the reconstruction of our monetary system, the manoeuvre is too transparent to deceive anybody.

Old Age Pension Terms Need Widening

By R. T. ELLIOTT, K.C.

Not as a critic of what has been done, but as an explanation of what has become necessary, the statement is absolutely true that the provision for the needy by way of old age pensions must be greatly extended and the methods of administration simplified.

It is certain that due to the conditions existing as a result of the depression and deflation since 1926, very few women over fifty years of age can obtain work in which enough can be earned to support life. Certainly, a woman cannot earn enough to support herself after power up to sixty or sixty-five years of age; but the average working woman looking for work will find herself shut out by a younger army of work seekers, once the passes the fifty-year mark.

Neither, under the changed conditions of price maintenance which are coming, can a woman sustain life on twenty dollars a month. The minimum should be raised to thirty dollars a month; and this amount an applicant should have to prove is that she is a permanent resident of Canada has no income or savings to support her except her own work, and that she is of the full age of fifty years.

Proof of these facts should entitle an applicant to a pension of thirty dollars a month for life; subject to a condition that the pensioner does not enter the labor market and look for work in competition with those who have no pensions.

Administration of pensions should be simplified by having a form of indorsement to be signed by the pensioner on each claim issued. This form should not come into the hands of any individual, but it should be used to save time and expense. The present system of having the pensioners go before a notary and make an affidavit once or twice a year is very troublesome to old people and unnecessary. The signing of the indorsement on the cheque can be law given the force of an affidavit, and an immediate saving of clerical work and expense and annoyances down with.

In the case of a working man, sixty years has certainly become the deadline, except for certain classes of specially trained men. The ordinary working citizen is certain to find himself elbowed out by an army of younger applicants when he looks for work after his sixtieth birthday.

Such a man should be given an old age pension of thirty dollars a month (or sixty dollars a month for a man and his wife), on proof of permanent residence in Canada and on a contract not to work for wages while drawing pension.

This will not be so costly as it looks at first glance—because it will greatly lessen competition in the labor market, and in the closing down of the relief camps, and in greatly lessening the expense of administration.

Under the modern economic conditions, two things must be kept in mind. The first is that no one can be allowed to go hungry. The second is that every possible opportunity must be given to the young, because the establishment of homes by the young is the chief source of national strength. Lessening the pressure on the labor market by taking out the older class of married workers who would be compelled to work at any wage they could get will work a great advance in the general standard of living—and the money paid out for Old Age Pensions will in large measure result in a corresponding decrease in the cost of unemployment. In view of the fact that both fall into control of the same purse, the wise course is the good business course to do use the money to relieve the elderly and widen the opportunities of the young.

Except for the machine guns and other latter-day appearances of war, such as the searchlights which send out their beams at night, lighting up patches of the starry forest at daylight clarity, the French are still in Africa, in which one of the army's advanced posts, do not differ a great deal from the Roman legions.

ROMAN LEGIONS

Nobody ventures a step beyond the thick barbed-wire entanglements of the frontier, and the only surprise like tigers watching the prey, the Berbers lie in the undergrowth, ready to pounce on the unsuspecting to within earshot of the camp and wait for any recklessness that shows itself in the dark for a rendezvous with a native girl.

Limbard has a few pieces of mountain artillery and a set of machine guns. Six machine guns were killed by Berber snipers this

French Legions Have Failed To Quell Moroccan Tribes

Thousands Die Yearly in Struggle to Extend African Colonial Territory

LYAUTAY LEADER
BY HIERON VAN TAASSEN
British Forces Staff Writer

TIMHADIT. Atlas Mountains, Jan. 5.—Every pound of coffee, tea, tobacco, groceries, even everything in the form of rations or supplies destined for the tribesmen in the mountains has to be escorted and guarded by a large escort of troops the moment it leaves the port of Casablanca. Reckless airships from Marrakesch have flown over the fort. They have dropped bombs on the fort, and the fort has been captured. The French have now cut off the extra-dangerous mission of running the woods for timber there.

Early in the morning and must be buried by sunset. When the gate is closed the tribesmen look worried and the searchers are sent to see if they are still alive. Has the tribe run away in an ambush?

The wireless crackles with news that the tribesmen are still there, whether the patrols are still there. Finally there is a sigh of relief, a trumpet blast, and the tribesmen are free.

Freshers must always be recruited in Morocco. Even in the most peaceful times, the tribesmen send over delegates in delegating matters. It frequently happens during the day that a small party of tribesmen, led by the chief of the Abdes Krim revolt, that a tribe walked over and joined the rebels, and then suddenly decamped one night, taking as much booty and equipment as possible.

Next spring the French are going to try to build a few more outposts, and then the tribesmen will be reached. To the east the operations of the so-called "pacification" of the tribesmen stop by step and every step costs blood.

DOCTOR ELECTED

Alderman, With Some Reservation

REGINA, Jan. 5.—Dr. Denis McLean, a member of the city council, but he raised the question of his eligibility to do so, insofar as he was not a permanent resident of the city. The act forbids a member of council to be a member of the legislature with the city. Dr. Sweeney wants the department of internal affairs to rule on the question, but will sit on council and stand by his relief medical duties and bill the city for his services.

Limbard has a few pieces of machine guns and a set of machine guns. Six machine guns were killed by Berber snipers this

Curling Will Reach Climax In Annual January Bonspiel

Calendar

To keep women apart through the northern parts of the province, January stands not only as a game month, but also as a bonspiel month. Muffed to the eyes in woolly scarfs and wearing long, warm, woollen skirts with plenty of overskirts, and with the determination of victory in their eyes, rockies never look prettier than when they bagged many members of outside rinks join the Edmonton club at this annual Mississauga.

This year the Ladies' Northern Alberta Curling Association, holding their annual bonspiel, commanding Tuesday, January 13, will be played at the Royal and Esplanade.

Mr. Morley Seller will be in charge of the games, which were last year the best.

The annual banquet will be held at the Corona Hotel, Thursday evening, January 17.

The following comprise the various events which are planned to make the 1935 bonspiel one of the best:

Reception, 7 p.m., Mrs. P. Quincey, Mrs. W. Howson and Mrs. Conn, Banquet and entertainment, 8 p.m., Mr. and Mrs. Gardner, draw, Mrs. Wm. Nesbitt; Mrs. A. W. McBeth, Mrs. W. R. Smith, Mrs. D. Durand, Mrs. Ed. Smith; nomination; Mrs. A. Mater, Mrs. G. L. Glazier.

Visiting rinks will kindly notify the secretary, Mrs. F. R. Munshaw, if they wish to be met on arrival.

City rinks please enclose fees with entry.

GRANITE CLUB

WINS WILSON

CUP AT THISTLE

After a vigorous battle of 14 ends, the challenge game for the Wilson Cup was won by the York on Friday afternoon, when members entertained at their annual meeting at the York Granite Club. Mrs. Durand and Mrs. Rose were the winning skip, and Mrs. H. C. Langford the wood the Thistle skips. In the thirteenth end there were thirteen hits, and Mrs. Blackwood lay first and second shot, only to be hit by Mrs. Rose's third and fourth rock.

The rinks were long gone to be remembered. Friendly games also were played.

The excitement of the games ended when Mrs. F. G. Fletcher, president of the Toronto Ladies' Curling Club, received the trophy for a team of former members who had come from each of the city clubs invited, together with their wives, though unfortunately were unable to attend the affair.

The York ladies' team, specially adorned with silver candleabras and backets of maize spray and flowers, were dressed in the red and green club colors. Mrs. J. A. Clarke, Mrs. M. A. Craig and Mrs. W. R. Smith were the three judges, pointing toes. Mrs. Reg. Jennings was the capable convenor and was assisted by Mrs. G. L. Glazier, Mrs. S. Walkinshaw, Mrs. R. Hall, Mrs. T. Woods, Mrs. Sanger, Mrs. A. Mater, Mrs. Brown, Mrs. Grimshaw, Mrs. Lang and Mrs. W. Brown.

ROYAL HOLDS ANNUAL TEA AND CONTESTS

Members of the Royal Ladies' Curling Club were hostesses at tea and friendly games when their guests, the Royal Club, were entertained at the Royal Club House, 121 street, Friday afternoon. The president, Mr. W. A. MacBeth, presided over the games, while Mr. Eddie Warham, president of the Royal, was in charge of the refreshments.

At the annual meeting of the Royal, held at 8 p.m. at the Royal Club, a joint meeting of Aid and Auxiliaries of the club will be held, and at 8 p.m. Mr. A. R. Osborne will be served.

"Y" Notebook

Mrs. F. Barber-Smith and Mrs. Jessie Holmes are arranging a very interesting program for the first annual meeting of the Y.W.C.A. which will be held in the club room at 8 p.m. at the Royal Club.

Mr. Holmes will speak on "Industry Mission Work in Alberta Thirty Years Ago." There will be a short film on the subject.

Mrs. Maybelline will sing a solo, and Miss Jessie Holmes will be the chair. All are welcome.

At a recent meeting of the board of the Y.W.C.A., February 2, Saturday, Mrs. William Freeman and Mrs. Eddie Warham, president of the Royal, were present.

All classes in the gymnasium and swimming pool re-opened for the new year, Thursday, January 3.

JASPER PLACE

The first meeting of the new year for the Jasper Place Women's Auxiliary will be held on Monday, January 7, in the Jasper Place School at 8 p.m. Mrs. C. V. Waterfall, president of the meeting will be addressed by Mr. C. V. Waterfall, chairman of the Jasper Club, and Dr. J. A. Alpin, Club's talk to be followed by a question and answer period of clapping in the Rockies. This is the second of a series of meetings which have been arranged by the executive of the league for the current season, the first being in December.

A social evening will be held by the Jasper Place Women's Auxiliary on Friday, January 11, also in the Jasper Place school.

How to Make Better Cough Remedy Than You Can Buy

A Big Saving, and It's So Easy! No Cooking!

Cough medicine usually contains a large quantity of plain syrup—a good reason for its high cost. It is easily made at home. Take 2 cups of granulated sugar and add 1 cup of water and boil until the sugar has dissolved. No cooking! No trouble at all.

Then pour your strongest 2½ cent Nickel Plate syrup into the bottle, and add your syrup. This gives you 10 times the strength of medicine, far better than anything you could buy ready-made, and yet get four times as much for your money.

It is probably the most effective, quick-curing remedy that money can buy. It is especially good for clearing the air passages. It removes the hoarse, phlegm, and sore throat symptoms, and makes breathing easier. You never see its like.

It is a highly concentrated compound, and a valuable and reliable healing agent for severe coughs. It is guaranteed to please you, and money refunded.

Mr. Jack Rogers of Wembley, who is attending the Balfour Parliament, is the guest of his son, Mr. M. L. Wright.

Mr. A. R. Cross has returned to University after spending Christmas in Calgary with his mother, Mrs. A. E. Cross.

Mr. Donalda Dickie was in the city this week en route to Kamloops, where he will be spending Christmas with his wife, Mrs. Dickie, and their two children, Barbara and Edward, who has left for Pablo Alto, California, where she has been working for the past year.

Hurbs' program, which range from classical to modern, are designed for the pleasure and musical interest.

Mr. Donalda Dickie was a guest at the Corral until Friday. After spending a week in Corral, he will go to Calgary to spend the rest of the winter.

Miss Vilette Wright left today for Calgary, where she will visit Miss Anna, her mother, and friends.

Mr. E. W. S. Kain accompanied by two children, Barbara and Edward, has left for Pablo Alto, California, where she has been working for the past year.

Several of the sub-debs who have enjoyed the gayest of the year's holidays at their homes in the United States, are now back again, having returned to the Alberta Legion Bowling Club are holding the fourth of their series of bridge tournaments on Wednesday evenings.

Miss Lora M. Hubley, retired patient in the Milner Hospital, has returned to Canada. Mrs. Hubley is visiting her sister, Mrs. Angus Baker, 129 street, and will return to Strathearn Lodge, Shawinigan Lake, Saturday morning to return to Strathearn Lodge, Shawinigan Lake, Vancouver.

AT 62—IN BED WITH RHEUMATISM

At 62—Working Again
Why worry about rheumatism? This old fellow had it almost as bad as it could be. But he just found time to work again, and so to him, now he's back to working again at 62 years of age.

"I am still all right," he writes, "I have suffered from rheumatism all my life, but I can't turn over in bed, nor help myself in any way. My legs and feet were so stiff until I started sleep and eat until I started taking Kruchen Salts. After taking one bottle of Kruchen Salts I could not sleep taking it, as I found the pains were leaving me. I have taken six bottles since I have started taking again. I am 63 years of age, and everybody that knows me says I am a wonder to get up every day."

Do you realize what causes rheumatism? It is either a hereditary or an acid crystalline form which causes the result of sluggish eliminating organs. Kruchen Salts can always be counted upon to break those painful crystals from the system.

What's What

I am contemplating a January trip to Florida, going from Montevideo, Uruguay, where I will be spent on the coast steaming and seven in touring Florida by motorcar. I am asking your advice concerning my wardrobe; I would also appreciate any advice you may have concerning my connection with a trip of this sort. Afterward I expect to go to Bermuda. Would you consider this suitable there? I want to say that I do not drink, smoke or eat half done food, where I have several acquaintances, more likely I shall be offered something. What shall be the best way to dress and yet appear not to put a damper on any party to which I go?

OXFORD READER.
Answer.—A cruise of seven to twelve days would make a voyage to Europe in the matter of cost and tips may be equally proportionate. You will need a room deck and \$35 extra for room steward, deck steward and bath steward. Half of each tip must be given to the deck steward in the tropical port, the other half just before leaving the ship. The hotel bill will be paid by the hotel waiters 10 per cent of the bill after meal.

WINTER TRAVELS are indicated for the Canada-New York journey going and returning. Before arriving in the South, however, you will change to Summer wear (appropriate also to Bermuda). It is disconcerting to travel in a foreign country to you by a host or hosts. Non-drinkers take the filled glasses—and leave them.

It is permissible for a couple to be married without a regular minister if both parties are adults only if close friends and relatives are present. BRIDE-ELECT.

Answer.—Two letters were received. Those who may be chosen from among the assembled friends or relatives, size the bride after the bride and groom have signed.

All Work Makes Jill A "Dull Girl"

DEAR DOROTHY DIX—I am a married man making a small salary. My wife and I are getting along splendidly. She is a good housekeeper and a fine cook. My problem is that my wife wants a permanent wave and I think we should have the money to buy us a home. If she gets a permanent wave, every six months she will want another. What do you think?

SHORTY.
Answer: If her heart is set on a permanent wave, I think she should have it. It is important to have happiness to have the outside of her appearance to be of her own in which to lay it.

It is fine for you to work hard and save toward getting a home. Thrift is one of the most admirable qualities, but it is only that you can easily afford it. It is better to have pleasure and save every nickel as it is to indulge yourself in every pleasure and spend everything you make as you alone.

ANSWER: You know, and all the happiness we ever have is what we have today. Do indulge your wife and yourself in a few luxuries while you are saving up for that home in the future. Remember that all work and no play makes Jack a dull boy, and it makes Jill not only dull but preoccupied.

Give your wife her permanent wave. The main reason she wants it is because she is afraid that if you so you won't be looking around at other women. DOROTHY DIX.

DEAR Miss Dix—I am a girl 20 years old considering marriage. I love my boyfriend very much. What is the usual outcome of such a marriage? G. B.

ANSWER: Anybody can have happiness for both people. A ten years' difference in age between a man and a woman makes no difference, but a twenty-year difference is older, but thirty years is too much. Three decades make a gulf that not even love can bridge.

DEAR 20 CAN HAVE HOPING IN COMMON WAY OF INTERESTS, OPINIONS, HABITS, POINTS OF VIEW WITH A MAN OF 50. THEY ARE BORN TOGETHER AND HAVE A DIFFERENT OUTLOOK ON LIFE. THEY DO NOT ENJOY THE SAME THINGS. DOROTHY DIX.

Good Taste

Spectacles, though an indispensable comfort to the woman who wears them constantly, are also a problem to her. She who is thus compelled to wear glasses must be cautious in adopting certain styles than her more fortunate sisters. Do not under any circumstances let your spectacles become a permanent part of your personal attire. Your lipstick should be omitted from her collection of jewelry. They are not only inconvenient but produce an overdone effect.

TOMORROW—Bragging About Your Riches or Your Poverty

ANSWERS TO QUESTIONS

Cosmetics
Sadie: I think that a soft ochre shade of powder, soft orange rouge

No matter how good a steak may be, it can be improved. Mix a teaspoonful of sugar with pepper and salt. Rub the meat with this mixture before cooking. The sugar will form a caramel coating on the outside and help to keep it from burning. This will make it taste much better and will cause it to be more youthful colors, rather than the youthful ones.

ANSWERS TO QUESTIONS

Beauty—Mrs. Smith: I have a very large nose and I would like to have it reduced.

ANSWER: Mrs. Smith: I have a very large nose and I would like to have it reduced.

ANSWER: Mrs. Smith: I have a very large nose and I would like to have it reduced.

ANSWER: Mrs. Smith: I have a very large nose and I would like to have it reduced.

ANSWER: Mrs. Smith: I have a very large nose and I would like to have it reduced.

ANSWER: Mrs. Smith: I have a very large nose and I would like to have it reduced.

ANSWER: Mrs. Smith: I have a very large nose and I would like to have it reduced.

ANSWER: Mrs. Smith: I have a very large nose and I would like

SECOND SECTION

EDMONTON BULLETIN—ALBERTA'S OLDEST NEWSPAPER—SATURDAY, JAN. 5, 1935

Stock Yards Report Increased Business, Higher Values, 1934

Estimated Value Placed at \$2,265,001, Representing a Grand Total of 144,809 Head of All Classes.

The estimated value of all livestock sold at the Edmonton Stock Yards for the year 1934 amounted to \$2,265,001 representing a grand total of 144,809 head of all classes and an increase of approximately \$600,000 over the value reported last year according to a report received Saturday by the senior market supervisor, Donalda Live Stock Co.

This was the best year in terms of values since 1931, but \$4,860, below the peak years of 1929, 1932, which were \$2,700,000 and \$2,600,000 respectively.

Donalda Live Stock Co. reported

that the value of all livestock through the yards last year amounted to \$712,569.

INCREASE SHOWS

Donalda Live Stock said 900 calves, 79,632 head, 17,961 sheep and 19 horses passed through the yards in 1934, showing an increase of 7,859, calves 1,734, sheep 2,200 and horses 200, and a material decrease in cattle.

The report points out that receipts of good quality cattle, especially cattle, especially during the late autumn and fall, were not sufficient to meet the demand, but it is a distinct problem so far as finding a outlet for them was concerned. It is to be indicated that far too many steers were held up for too long a time, while too many weanlings were being marketed for the general trade.

VALUES HIGHER

Reviewing the report, it is shown that the average price for cattle last year was 10 cents per hundred higher than 1933. The average price for hog was 25 cents per hundred higher than the average of the preceding year while the quality of the hogs sent to market was not up to the improvement in type and quality.

Lamb prices show an advance of 6 cents per hundred, while 1934 with sheep prices ranging higher by 40 cents, the report disclosed.

19 BELOW ZERO DURING NIGHT

Low temperatures continue to prevail hereabouts and the probabilities are for more of the same. The lowest point touched during the past week was 19 below zero, while at 7:45 a.m. the mercury had risen to 17 below.

The official winter forecast for the month of January is mostly fair and decidedly cold tonight and Sunday.

Now comes a move up to the head of the class as the coldest point in Alberta Wool Pool convention at Calgary. The meeting also asked that the pool accept a new tax and tax agreement from the government.

Montgomery, head of the Wool Pool, said 12 points of the 26 Peace River reported 32 below.

Police Locate Missing Boys

Two young city boys for whom police made a hurried search all Friday night were picked up when they walked out of the Armstrong block early Saturday morning.

The boys had frequently left home for a night at a time before and slept in the washrooms of downtown blocks.

That's what they did Saturday night, but the two sons of the Armstrong block, while their parents and police combed the city for them in a careful search.

HOLD CLASSES IN FIRST AID

A class for first aid instruction will be conducted by the St. John Ambulance Association, Edmonton Centre, on Tuesday, January 8, at 8 p.m. at the headquarters offices, 10137 88 Street.

First aid will be taught to modulation holders only, and will be devoted to the study of the most effective methods of first aid treatment.

Students will be required to provide themselves with a triangular bandage and the standard first aid kit as well as a copy of the textbook "First Aid to the Injured."

The class will be under the tutelage of Wm. Atkinson, an instructor and first aider of many years experience. Those interested in attending are asked to write the secretary, Edmonton Centre, St. John's Ambulance Association, 10137 88 Street of phone 22315, between 3:30 and 5:00 p.m. each day.

MAYOR SPEAKS SUNDAY NIGHT

What has been the solution of the financial crisis—Mayor J. A. McGee, of Vancouver, and Premier R. H. Bennett? will be the subject of an address by Mayor J. A. Clarke, of Edmonton, at 8:30 p.m. Sunday. The speaker will be the average of the preceding year while the quality of the hogs sent to market was not up to the improvement in type and quality.

Lamb prices show an advance of 6 cents per hundred, while 1934 with sheep prices ranging higher by 40 cents, the report disclosed.

Small Interest In Farmers' Meeting

MUNDRAU, Jan. 5.—At a meeting held by scores of farmers here on Friday, the chairman of the central strike committee gave a short report of a recent conference of the members of the Farmers' Unity League in Edmonton, also urging farmers to join the organization.

The wind direction and the weather conditions will be the chief factors in the success of the meeting, which agitators of last fall's grain strike, however, failed to materialize.

The bus drivers, who were apparently not interested,

Alberta Wool Pool convention at Calgary. The meeting also asked that the pool accept a new tax and tax agreement from the government.

WHEAT CLOSES HIGHER AFTER DULL TRADING

Range in Grain Prices

By James Richardson & Sons, Ltd.

January 3, 1925

WINNIPEG. Jan. 3.—Trading continued in the afternoon at the Winnipeg Grain Exchange, today, with tenders securing another reversal of foreign interest in Canada's wheat market, and commitments on either side of the market were steady.

Wheat prices, in one time 1½ cent basis, May, at 80¢, were 79¢ 15c.

The trend of outside buyers failed to rise above 79¢ a bushel, but traders here had a slight upward reaction from yesterday's 1½ advance.

No sales of Canadian wheat for exports were made, but foreign purchases, for 200,000 bushels appeared to have filled the present demand.

Cash and choice grain also were slow.

WINNIPEG CASH CLOSE.

ROCKY MOUNTAIN SHEEP OR BIGHORN...

THE SPECIAL HORNS OF THIS GREAT MOUNTAIN ANIMAL ARE ITS CROWNING GLORY! HUNTERS PRIZE THEM HIGHLY AS TROPHIES.

INDIANS PLACED THE HORNS IN TREES, AND ALL OVER NORTH AMERICA THESE TREES MAY BE SEEN TODAY WITH THE HORNS IMBEDDED IN THE WOOD.

THE ANIMALS LIVE ON THE HIGH, CRISP PEAKS OF THE WESTERN MOUNTAINS, AND DESCEND TO LOWER LEVELS ONLY WHEN RACING SNOWSTORMS SWEEP DOWN, BUNDLING FURY, THROUGH THE UNPROTECTED CRAGS.

FRECKLES AND HIS FRIENDS

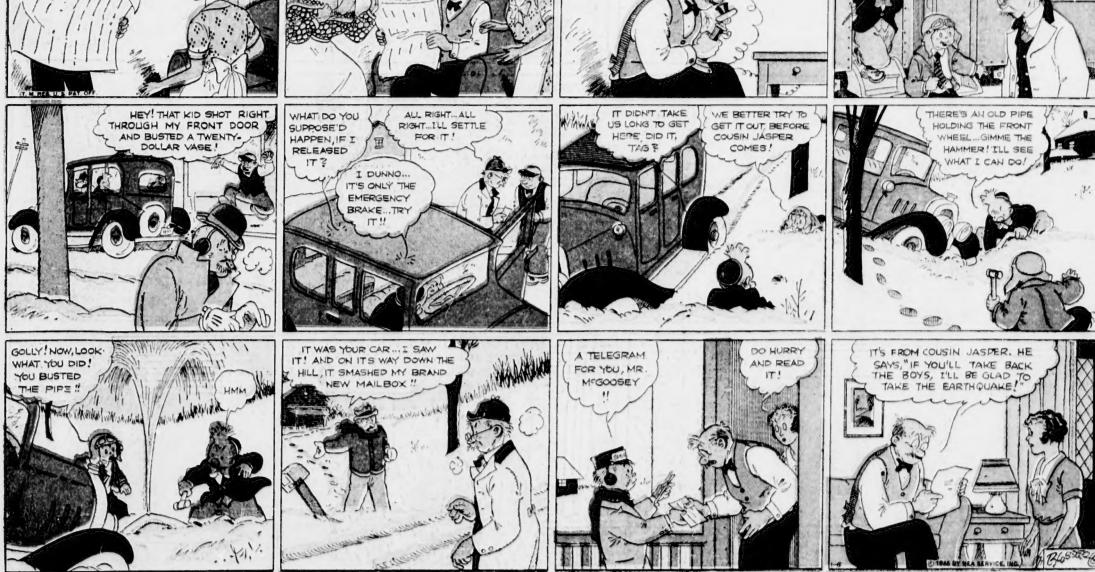

DID YOU READ THE PAPERS? I WAS WONDERING IF WE COULD SEND THE BOYS OUT OF TOWN, UNTIL THE DANGER IS PAST?

GOOD IDEA, MRS. PLETZENBAUM! I'LL PHONE MY COUSIN, LONG DISTANCE!!

AND I THOUGHT YOU WOULDN'T MIND KEEPING THE BOYS UNTIL THE DANGER OF AN EARTHQUAKE IS PAST! OKAY, JASPER?

BUT ACCIDENTS DO HAPPEN! AN OCCASIONAL BLEACHED SKELETON, AT THE FOOT OF A TOWERING CLIFF, PROVES THAT EVEN THE COCK-SURE BIGHORN SOMETIMES OVERESTIMATES HIS SKILL!

By Blosser

Bulletin

Service to its constantly increasing army of readers has brought wide recognition. Its news is brief and pithy, easy to read, accurate and fair, while its

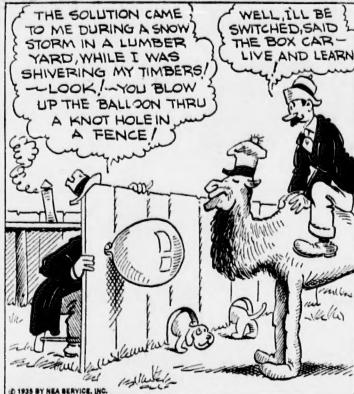

Features

excel in every department. In illustration, comics, women's activities, editorials, sports, serials and short stories, markets, finance, constant improvement has made The Bulletin
